HISTORY

Felton DCCS (formerly known as UCSF Center on Deafness) has served the community for over 45 years. In 2012, DCCS joined Felton Institute: Family Service Agency of SF and expanded services to Alameda County in July 2013. We look forward to expanding services to other Bay Area counties at the request of the county’s behavioral health services.

DCCS is committed to providing quality and innovative mental health services for individuals (both children and adults) who are Deaf, Hard-of-Hearing, Late Deafened, DeafBlind and their families and partners.

A DIVISION OF FELTON INSTITUTE | FSA
Our Felton DCCS MFT, LCSW and LPCC licensed therapists and registered interns are trained and experienced in mental health services for Deaf, DeafBlind Hard-of-Hearing, Late Deafened, and their families and partners.

Most of our DCCS staff have personal experience being Deaf and Hard of Hearing. All staff are fluent in American Sign Language, and Certified ASL Interpreters are available for services as needed.

Felton DCCS staff works with children, adults and seniors who are dealing with depression, anxiety, mood or thought disorders, stress, relationship issues, family problems, and other mental health issues.
